

Flow model: SUMO contribution wizard — three entry points, one pipeline

Dashed lines = optional skip or alternate routing • Power users (User 1) skip setup and scoping, enter at Discovery

Pipeline summary

User 1 (Engineer): enters at Discovery - skips Setup and Scoping

User 2 (Student): enters at Setup - full guided experience via VS Code

User 3 (SME): enters at Setup - full guided experience via web/mobile app

Failure paths: counter-sat/error → Authoring | timeout → Classification
